

ANTHONY FOUSSETTE

Founder & full-stack engineer with 5+ years of experience shipping real-time products end to end, from architecture to production. Built and operate a live sports-data SaaS platform (WebSocket streaming, broadcast overlays, AI match commentary) serving international customers whose live broadcasts reach millions of views per month. Fully bilingual French-English. Seeking senior full-remote engineering roles with U.S. teams.

HIGHLIGHTS

- **Millions of monthly views** — international streamers & media broadcast live with InPlay Studio overlays
- **Real-time at scale** — WebSocket pipeline streaming live Opta / Sportmonks match data straight to on-air graphics
- **AI match commentary** — live LLM + text-to-speech commentator running on real-time data feeds
- **Built solo, end to end** — architecture, front end, back end, infra & operations across three products

SKILLS

- React, Next.js, Node.js — JavaScript / HTML / CSS
- REST APIs, WebSockets, SQL, AI agents, LLMs & automation
- Self-starter, fast learner, strong sense of initiative
- Bilingual French-English, basic Spanish
- Team player, strong interpersonal skills, thrives under pressure and deadlines

INTERESTS

- Emerging technologies
- Entrepreneurship
- Modern art
- Video games & pop culture (esports, VR, regular EVA player)

EXPERIENCE

- 2023 – Now **Founder & COO — InPlay Group: Studio, Score & API (football / soccer)**
 - InPlay API: real-time sports data aggregation & delivery (Sportmonks, Opta) over WebSockets
 - InPlay Studio: real-time OBS/Twitch broadcast overlays for streamers & media, incl. 3D pitch radar
 - InPlay Score: mobile live-score app (French market)
 - AI live match commentator (LLM + text-to-speech) running on real-time data feeds
 - Stack: Next.js, React, Node.js, SQL, REST APIs
 - Applications in production with international customers
- 2021 – 24 **Freelance — Web Developer & AI Agents**
 - AI outreach & prospecting agents (restaurants, IT, services)
 - AI football scouting agent: player detection & analysis from match data
 - Websites and web applications for client businesses
- 2023 **General Manager — Le Gazebo (restaurant & pool club)**
 - Managed a team of 10 employees
 - Customer and supplier relations
- 2021 – 23 **Founder & CEO — JF CORP**
 - Built crypto-mining rigs for individual clients
 - Bespoke high-end PC builds & premium setups for demanding customers
- 2021 **Web Developer — Flux**
 - Front-end development of web applications

PRODUCTS

- **InPlay Studio** (esports & streaming overlay SaaS, international)
- **InPlay Score** (live scores + fantasy esports / sports)
- **Custom AI agents for businesses** (automated outreach for restaurants, IT services and more)
